Harmonia Enterprise Architecture — RAD 1.1.5

Identity and standing catalogue for holistic Solution Architect/ARB review. Full architectural content remains in the canonical Markdown and generated HTML browser. Publication confers no acceptance.
1559 individually represented elements; no publication identity allocation.

ApplicationCollaboration

Provider Registry solution collaboration

ApplicationCollaboration | Candidate — accepted Step-B baseline; final Solution Architecture unapproved | current
9305dc8d55b34b70950190e28b5464cf
Friendly: ProviderRegistrySolutionCollaboration
Canonical: Unresolved
../../../application/application-collaboration/9305dc8d55b34b70950190e28b5464cf.md

ApplicationComponent

AI Assurance Ergon

ApplicationComponent | Candidate — accepted Step-B baseline; final Solution Architecture unapproved | current
8fe50975372b4d399a4bcb9f3d9348f7
Friendly: AiAssuranceErgon
